EMERALITE DAYLITE

BEST LIGHT FOR
READING-WRITING-SEWING
KIND TO YOUR EYES

Emeralite is not just a lamp but rather a service to sight. Eyes need a light correct both in quality and quantity, if they are to work without fatigue or strain. The selection of a suitable working light is quite as important as proper eye-glasses. Emeralite costs less than a good pair of eye-glasses, lasts much longer, and helps eyes work better.

Nature made daylight right for eyes. That is why Emeralites are fitted with a special daylight screen that changes ordinary artificial light into soft diffused, glareless daylight that helps you see better and enables you to read longer. Quality of light however, is difficult to describe—it must therefore be shown.

The simple comparison illustrated above, one lamp having the Emeralite "daylite" screen, the other without the screen, will convince anyone of the advantages of Emeralite daylight. Try Emeralite in your own office

under actual working conditions and note the improved quality of light, its efficiency and contribution to the conservation of sight.

Emeralite reflectors (proved by sight meter tests 50% more efficient than other types) are offered in three colors. Emeralite green, Nature's predominating color, and best for eyes. Russet Brown that conforms to many decorative requirements. Black opaque glass, more efficient and durable than metal. All Emeralite reflectors are lined with white opal glass, do not tarnish from heat or dampness, can be easily washed, and retain efficiency a life-time. Many prominent users find that standardizing their desk lighting with Emeralite Daylite improves the efficiency of office staff and reduces maintenance cost to a minimum.

2 KIND TO THE EYES

EMERALITE DAYLITE

The new lift-off holder enables you to quickly interchange shades and thus easily satisfy your wishes as to choice of color. No metal is attached to shades. Simply lift shade off of holder to change to another color or to wash and keep shade clean and efficient.

One of the principal drawbacks of other shades is the fact that they stain easily and cannot be washed, cannot be detached from lamp without annoyance, are hampered by metal parts, never give light equal to Emeralite, and commence to deteriorate almost from day of purchase. On the other hand, any of the Emeralite shades shown in this catalogue may be washed easily and kept as efficient as when first purchased without the slightest trouble. Emeralite reflectors do not depend upon your side walls or ceiling for efficiency. Full daylight for desk-top, table, or working plane is always assured with Emeralite.

The double socket shown in the above illustration, another exclusive Emeralite feature, provides more light at less proportional cost, better

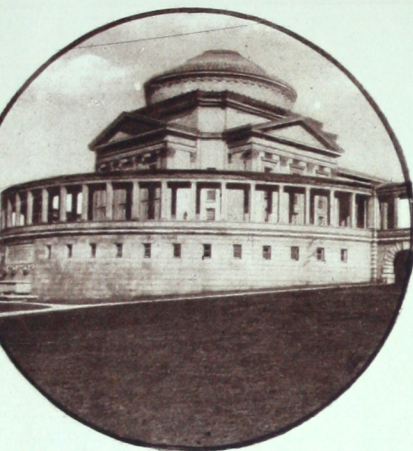

quality of light, wider distribution, uniform diffusion, and permits the use of two bulbs instead of one. All double socket lamps are furnished with base switch instead of former pull chain, thereby eliminating strain of pull on shade and holder.

Vertical adjustment of shade is provided by a new drop-forged spring joint that functions without the use of wing-nut or set screw, improving its appearance. These and other exclusive features make Emeralite ideal for reading, writing, working. Accepted as standard in homes and offices where the value of correct lighting is recognized. Certainly no buyer ever regretted its purchase or tired of its service.

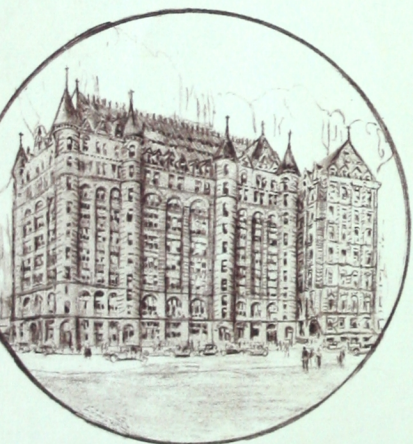

Emeralite enables you to start with a single lamp and gradually build up a complete, uniform, standard lighting system, for every need in home and business, with the assurance that efficiency can be maintained and extra parts and extra shades can be purchased anywhere at anytime.

EMERALITE DAYLITE

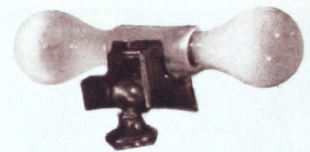

The new daylite screen is used with standard bulbs and changes ordinary artificial light into soft glareless daylite.

Emeralite reflectors are made in two lengths and in five standard executions covering all decorative requirements.

The new reflectors have no holes or slots, are larger, and having no metal parts, can be washed indefinitely.

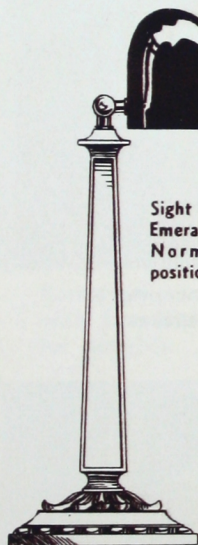

Refined classic styles in various designs are available in many upright models. Base switch as shown is used.

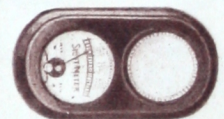

The double socket provides double light and better diffusion. Holder shown permits shade to lift off instantly.

0890/8753

A New Standard Emeralite. Flemish Colonial Motif.

Sight Meter Tests of Emeralite Reflector in Normal Horizontal position.

Sight meter tests prove that Emeralite liberally covers the approved foot candle specifications.

A practical and indispensable bank fixture for use on "National" Postage Machine, Model No. A.K. 2168. Height 12 inches. Length to front of shade 14 inches. Standard finish is Black and Nickel to match the finish of the machine itself.

Semi-Indirect Study and Reading Lamp
Using 100 watt type A bulb. Sight meter tests show that this lamp attains 48 foot candles at 6 in., 39 foot candles at 12 in., 25 foot candles at 18 in., and 15 foot candles at 24 in. Ceiling reflection shows 8½ foot candles at 30 in. and 5½ foot candles at 36 in. from lamp. Superior illumination has been secured by blowing both shade and reflector of cased glass in one piece. This also adds extra strength. Outside surface has been tastefully etched and colored in brown with light brown contrasts. Height overall 22¾ in. Diameter of shade 12 in. Height of shade 6½ in. Distance between bottom of shade and table top 15½ in. Lamp, therefore, combines compact design, permanent reflecting qualities and elimination of awkward height. Shade lifts off in one piece for easiest cleaning.

0892/2095 Semi-Indirect
No Daylite Screen

This lamp has same size and dimensions as 0880, also illustrated on this page, but in a new and graceful classic design. Standard finish is Flemish Bronze.

0892/2095 \$19.75

0793/7705—Brown opaque	10.00

A splendid lamp for small desks where a low lamp is necessary. Equipped with adjustable arm which makes it practical also for upright pianos. Base is 5 inches in diameter. Arm adjusts at base and shade. Standard finishes are Statuary Bronze or Pewter.

0804/7704 Picture Light
No Daylite screen

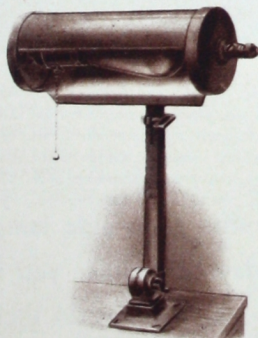

The illustrations on this page introduce the new Emeralite Miniature Shades (size $7\frac{1}{2} \times 3 \times 2\frac{1}{2}$). The light above combines the new Black opaque shade with bracket and makes a highly efficient fixture far superior to metal shade lights. The Black shade reflects all light downward and not only illuminates even the remote corners of any picture not exceeding 60"x60", but diffuses light evenly in all directions. Black is unaffected by heat or dust, does not spot picture, covers a greater field, and light can be controlled by tilting shade or adjusting position of fixture. Shade is easily removed and washed without fear of tarnishing. Metal parts are well made and carefully finished in Statuary Bronze. Fixture adjusts vertically by a set screw in rear rod (length 6"). Horizontal arm telescopes from 5" to 9". Patented spring joint for tilting shade. Feed through switch. Nine feet silk cord.

0804/7704—Black \$9.50

With Encrusted Gold Shade

Same size fixture as above, finished in rose gold with encrusted gold shade to match gilt frames. A particularly fine fixture.

0804/7911 \$12.00

0663 Pulpit Lamp
No Daylite Screen

0663—Statuary Bronze \$13.00
Ideal for pulpits and reading desks. Has adjustable opening which permits the light to show only on the manuscript. Stem telescopes and is adjustable from 9 to 15 inches high to top of reflector. Thumb-screw at right clamps reflector in position. Standard finish: Statuary Bronze. For Brushed Brass deduct \$1.00 from above price.

0792/7641
No Screen

(with miniature shade)

0792/7637—Emeralite brocade green	\$9.50
0792/7640—Brown brocade with decorated border	12.50

An ideal low-priced lamp for small desks. Height overall 11½ in. Diameter of base 5 inches.

0785/1666

For Your Grand Piano
No Daylite Screen

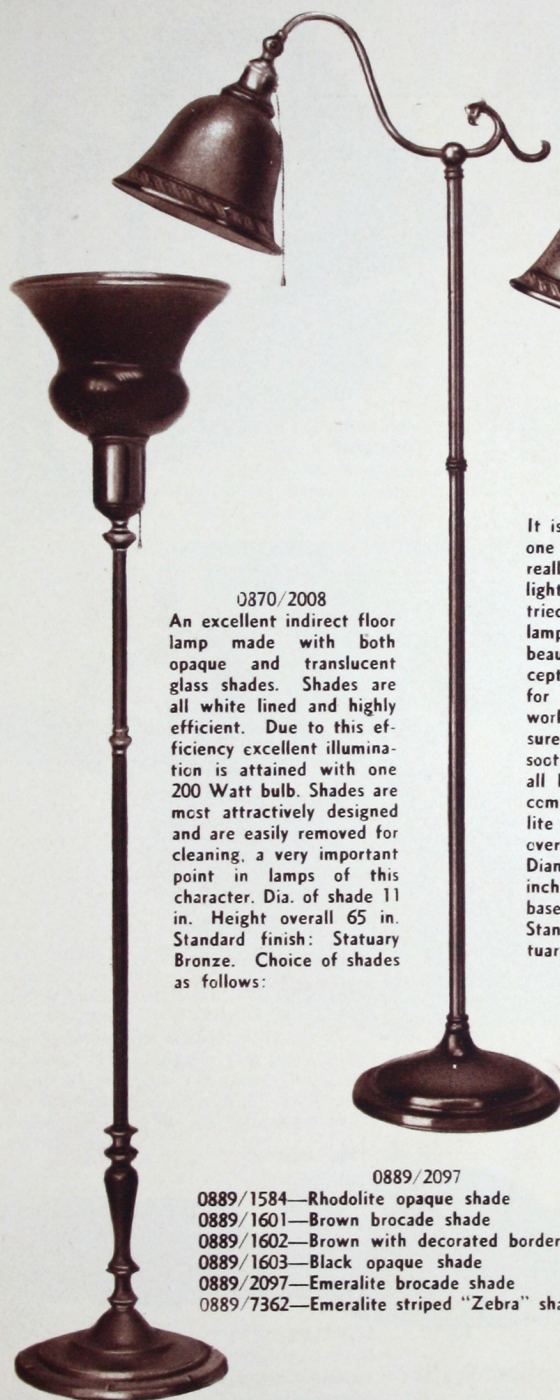

This beautiful lamp is guaranteed to illuminate both pages of notes, and shade your eyes from glare. A refined and beautiful lamp that will fill a long-felt want. Statuary Bronze finish. 12 feet of silk cord. Height 12½ inches.

0785/1666—Brown opaque	\$17.50
0785/1667—Chamois shade	16.00
0785/1668—Brown shade	16.00
0785/1645—Black opaque, pewter finish	15.00

Untold eye-comfort and pleasure are provided by the use of Emeralite chair side lamps. Eye-strain and squinting is thereby avoided and the soft soothing Emeralite daylight enables you to read better and longer. The exceptional Emeralite daylight efficiency of 33 foot candles 24 inches from base center is attained. Correct for home or office. See lamps illustrated on opposite page.

EMERALITE DAYLITE

0870/2008

An excellent indirect floor lamp made with both opaque and translucent glass shades. Shades are all white lined and highly efficient. Due to this efficiency excellent illumination is attained with one 200 Watt bulb. Shades are most attractively designed and are easily removed for cleaning, a very important point in lamps of this character. Dia. of shade 11 in. Height overall 65 in. Standard finish: Statuary Bronze. Choice of shades as follows:

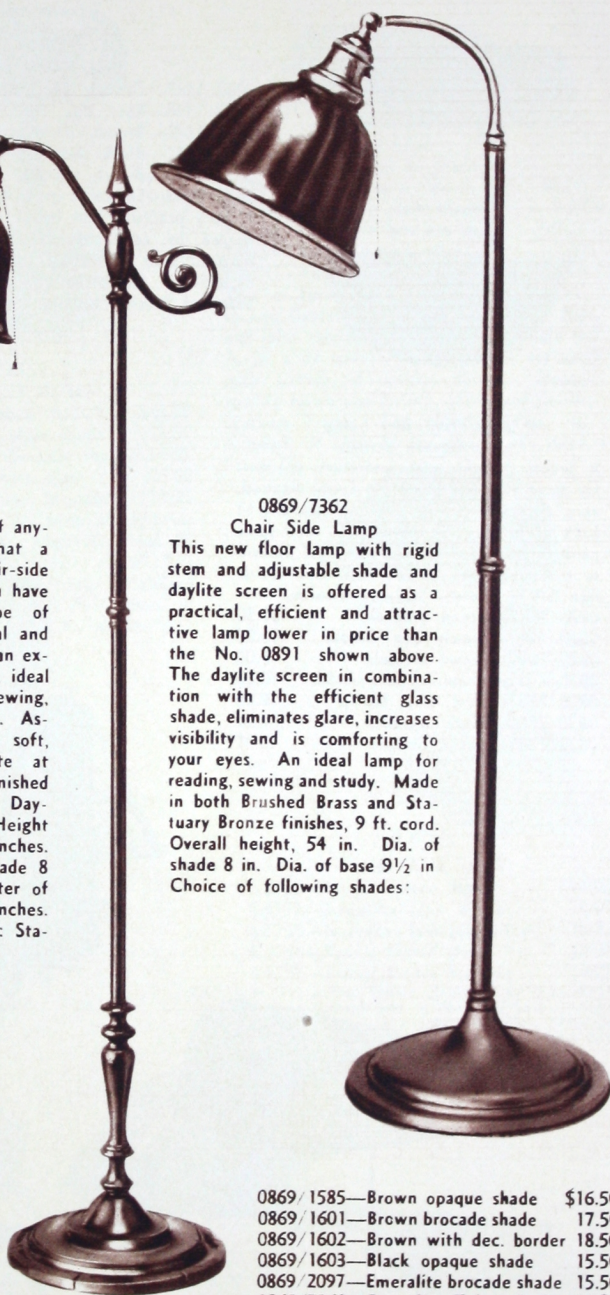

0870/2005—Black opaque garnet	\$24.50
0870/2006—Black opaque green	24.50
0870/2007—Black opaque plain	18.50
0870/2008—Black opaque platinum	21.00
0870/2009—V. green brocade	21.50
0870/2010—V. green brocade relief	23.50
0870/2011—Brown decorated	27.50

0889/2097

0889/1584—Rhodolite opaque shade	16.50
0889/1601—Brown brocade shade	17.50
0889/1602—Brown with decorated border	18.50
0889/1603—Black opaque shade	15.50
0889/2097—Emeralite brocade shade	15.50
0889/7362—Emeralite striped "Zebra" shade	14.50

It is doubtful if anyone knows what a really good chair-side light is until you have tried this type of lamp. Practical and beautiful, it is an exceptional value, ideal for reading, sewing, work and study. Assures ample, soft, soothing Daylite at all hours. Furnished complete with Daylite screen. Height overall 54 inches. Diameter of shade 8 inches. Diameter of base 10½ inches. Standard finish: Statuary Bronze.

0869/7362

Chair Side Lamp

This new floor lamp with rigid stem and adjustable shade and daylite screen is offered as a practical, efficient and attractive lamp lower in price than the No. 0891 shown above. The daylite screen in combination with the efficient glass shade, eliminates glare, increases visibility and is comforting to your eyes. An ideal lamp for reading, sewing and study. Made in both Brushed Brass and Statuary Bronze finishes, 9 ft. cord. Overall height, 54 in. Dia. of shade 8 in. Dia. of base 9½ in. Choice of following shades:

0869/1585—Brown opaque shade	\$16.50
0869/1601—Brown brocade shade	17.50
0869/1602—Brown with dec. border	18.50

0662/1611—Black opaque 10.00
0662/1730—Brown opaque 10.00
0662/2049—Emeralite green brocade 10.00
A very practical bed lamp. Arm is supported by adjustable clamp screwed to back of bed, permitting arm to be raised or lowered. Complete with Daylite screen. Standard finish: Statuary Bronze.

0662/2049

0832

No Daylite Screen

The new metal shade illustrated is not only exceedingly neat and attractive but it is exceptionally strong. The fluted design gives added strength which is reinforced by a heavy turned over edge. The fixture comprises a spool adjustable joint of solid brass and a practical strong clamp heavily felted for protection of furniture. Size of shade $8\frac{1}{4} \times 4\frac{1}{4} \times 2\frac{3}{4}$. Length from clamp center to outer edge of shade 8 inches. Finished in Statuary Bronze, complete with pull socket, 6 feet of cord and plug.

0832—Statuary Bronze \$6.50

0704

No Daylite Screen

A handy all-metal bed lamp. Adjustable to any position. Clamps to either round or square post. Universal joint with brass shade that can be tipped to any angle. Fitted with 8-inch chain pull socket. Old gold \$5.00

0807/7640 Metal Bed
No Daylite Screen

This is an ideal decorated light with felted clamp for top bar of metal bed. Practically the only lamp for the purpose that gives a real good comfortable light. Choice of shades. Statuary Bronze.

Jobbers, Dealers, and Consumers, all pretty well agree that wherever there is a use for a green and white shade that it is good policy to use a perfect one.

Many a job has been marred by a fleckly-green that clashes with those who have not lost their vision. Then there is the perfect porcelain-white-inside desired by all but found only in Emeralite.

Sum it all up and ask yourself the question. Does it pay to stock a poor quality shade just to save a penny or two on the article?

Besides being perfect in quality, Emeralite shades are packed better than any other.

Made perfect means: Holders that fit; shape that is uniform; a real green and a snow white—and no comebacks when sent out on the job.

Packed better means: No chipped edges; more perfect shades; and less loss by breakage.

Emeralite shades are considered standard by leading jobbers in the United States, Canada and Mexico.

Made by a single factory. Controlled exclusively by us for over forty years.

Supreme because superior.

0801
With Daylite Screen
A strong and practical fixture complete with flexible tube, brass shade, and rigid stem. Complete with daylite screen. Height overall 23 inches. Heavy brass shade 7 inches in diameter. Wired with 10 feet of approved cord, approved socket, and plug. Brushed Brass or Statuary Bronze.
List price \$4.75

0800
A very compact and useful fixture, complete with flexible arm, rigid stem, and brass shade. Height overall 23 inches. Heavy brass shade 7 inches in diameter. Wired with 10 feet approved cord, approved socket, and plug. Brushed Brass or Statuary Bronze.
List price \$3.50

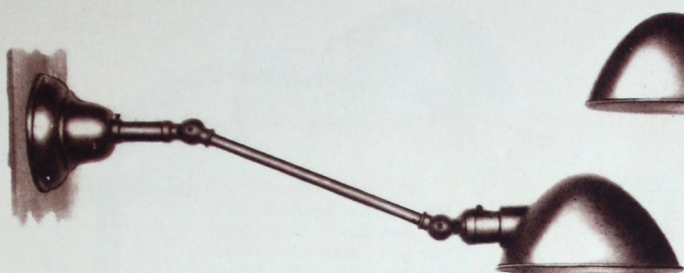

0794
An exceedingly practical adjustable wall fixture. Note that both vertical and horizontal adjustments are quickly made at base. There is also a substantial and unique spring ball joint at socket. Arm telescopes from 25 to 36 inches. Heavy brass shade 7 inches in diameter. Wired with 10 feet of approved cord, approved socket and plug. Brushed Brass or Statuary Bronze. A particularly well made fixture.
List price \$9.00

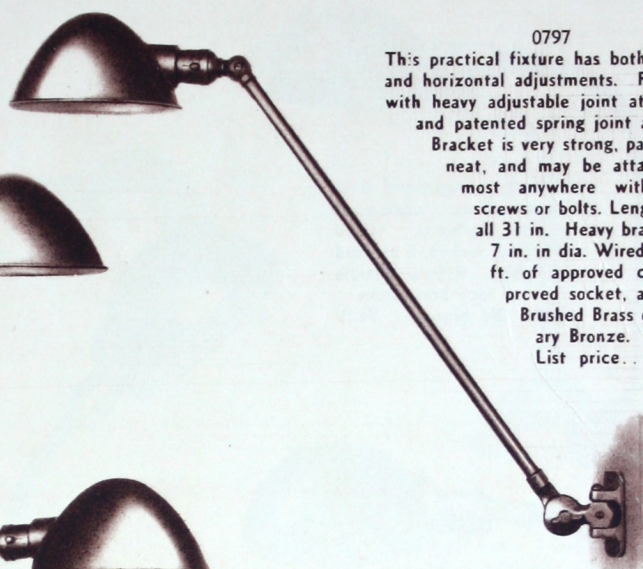

0855
An excellent type of adjustable lamp, sturdily built, with heavy swivel at base, telescoping arm adjustable from 12 in. to 17 in., with adjustable joints at each end of arm. Swivel at base enables any horizontal adjustment, while movable joints at each end of the arm facilitate vertical adjustments. Dia. of base 6 1/2 in. Dia. of shade 6 1/2 in. Furnished either with or without daylite screen as follows:
0855—Statuary Bronze . . . \$8.00
0855D—Statuary Bronze with Daylite Screen . . . 9.00

0860
A very practical and economical adjustable lamp. Two simple ball joints permit easy vertical adjustment of both arm and shade. Dia. of shade 6 1/2 in. Dia. of base 5 1/2 in. Length of arm between centers 12 in. Standard finish Statuary Bronze.
0860—Statuary Bronze . \$4.00

0796

A very neat adjustable wall fixture complete with canopy. Arm has two adjustable ball joints with patented spring joint at shade. Length overall 24 inches. Heavy brass shade 7 inches in diameter. Wired with 10 feet of approved cord, approved socket, and plug. Brushed Brass or Statuary Bronze.
List price \$5.00

0797

This practical fixture has both vertical and horizontal adjustments. Furnished with heavy adjustable joint at bracket and patented spring joint at shade. Bracket is very strong, particularly neat, and may be attached almost anywhere with either screws or bolts. Length overall 31 in. Heavy brass shade 7 in. in dia. Wired with 10 ft. of approved cord, approved socket, and plug. Brushed Brass or Statuary Bronze.
List price \$7.50

0798

This is a splendid adjustable fixture with both vertical and horizontal adjustment as well as telescoping arm. Standard is 13 inches high and will clamp easily to almost any bench or table. Arm telescopes from 25 to 36 inches, swivels at top of standard, and is fitted with adjustable joint. Patented spring joint at shade. Heavy brass shade 7 in. in diameter. Wired with 10 feet of approved cord, approved socket and plug. Brushed Brass or Statuary Bronze.
List price \$9.00

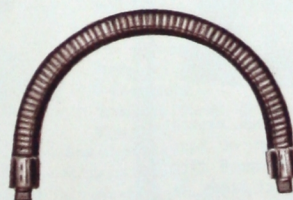

0799

This is similar to fixture 0798 except that fixture is attached to side of bench or table and standard gives increased height. Standard is vertically and horizontally adjustable at top of standard. Overall height of standard 19 inches. Telescoping arm adjustable 25 to 36 inches. Patented spring joint at shade. Heavy brass shade 7 inches in diameter. Wired with 10 feet of approved cord, approved socket, and plug. Brushed Brass or Statuary Bronze.
List price \$9.50

The light and heat from Thermolite affects not only the surface, but reaches deep-seated pain and affords relief in spinal or renal irritation, bruises, backache, lumbago, sciatica, and many other complaints.

Because Thermolite relaxes the nerves, application to the spine and back of the neck will relieve the effects of mental or physical fatigue and stop the pain of stiff neck, boils, carbuncles, ulcers, abscesses, etc.

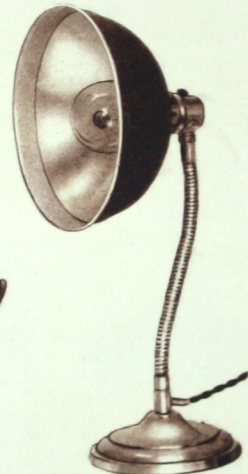

The warm, sun-like rays of Thermolite stimulate the scalp, while quickly drying hair, leaving it soft and lustrous. Thermolite will also curl hair as it dries.

**Hand Applicator
0750**

The 0750 Thermolite replaces the 0645, which has been discontinued. The general appearance of Thermolite has not only been improved, but the diameter of the reflector has been increased to 9½ inches, representing a 70% wider field of projection. Every part of Thermolite is constructed to attain superior application of Radiant Light and Heat. The inside hand polished reflector is separated from the outer shell by dead-air space, insulating metal parts against excessive heat, so that heat is not consumed in overheating applicator, but is utilized for therapeutic treatment. Elimination of overheating adds to the efficiency of Thermolite and contributes to its safety. Due to efficiency of reflection Thermolite consumes but 200 watts, resulting in a 25% saving in current. While the projection of Radiant Heat is primarily the function of Thermolite, the fact that Infra-red rays in abundant volume are also conveniently and safely produced, should not be overlooked. Furnished complete with 120 volt 200 watt bulb, nine ft. of cord and plug. Crystallized black and nickel finish.

**0750—Hand model
Each \$7 50**

0645—Folding Stand

For use with No. 0750 applicator. This stand folds to 24 inch length, weighs but 30 ounces, and is therefore very convenient for travelling. Clamp and ball-joint permit adjustment of applicator to any position. Stand is adjustable from 75 inches to 40 inches. Polished nickel finish.

0750/0645—Complete
as shown. Each \$12.50
0645—Folding stand and
lamp. Each 5.00

**0696/0750—Stand with 0750
Applicator**
(Shown at right)

This fixture is ideal for bedside use in home or hospital. Extremely neat in appearance and substantially made. Heavy base 9 inches in diameter. Telescoping stem adjustable from 62 to 30 inches. Standard finish white enamel and nickel. Applicator is permanently attached to flexible arm. Complete with 120 volt 200 watt bulb and 9 foot cord.

**0696/0750—Stand with 0750
Applicator** \$15.00
**0696—Stand only with flexible
arm and clamp attached** 7.50

0850—Table Model

The 0850 Table Model comprises the 0750 Thermolite complete with flexible arm mounted on weighted base finished in full nickel. A very practical model, exceedingly well made and durable. Outside reflector finished in crystallized black. Height overall as shown 22 inches. Diameter of base 6½ inches.

Price complete. Each \$10.00

0750/0685

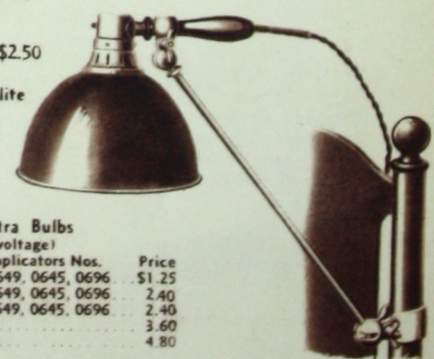

Clamps to "chair, table or bed. Universal joints permit adjustment to any angle. Length 18 inches. Felted clamps protect furniture.

0685

Arm only. Ea. \$2.50

0750/0685

Arm and Thermolite
\$10.00

Extra Bulbs

METAL SHADES

(Use Black Opaque)

Black opaque shades listed in this catalog are made of three ply heavy glass, with pure white opal lining. They are superior to metal because of increased reflecting qualities and because they do not tarnish from heat or dampness and can be washed easily. Black opaque shades reflect all light downward and therefore emit no light whatsoever through the shade. Black opaque shades are used with all finishes and are excellent when combined with Statuary Bronze. As a Moderne finish Pewter Finish with Black Opaque is superior in appearance to chrome. For Pewter Finish there is no extra charge.

SPECIAL FINISHES

Statuary Bronze, Flemish Bronze, and Pewter are furnished without extra charge. Brushed Brass is lower in price in accordance with price list. Special finishes are customarily 20% additional unless otherwise specified in this price list. Black Opaque plain black is an excellent combination with Pewter Finish as well as being exceedingly satisfactory when combined with Statuary Bronze or Flemish Bronze.

SPECIAL INSTALLATIONS

Every effort has been made to cover in this catalogue Emeralites for every writing and reading need in home or business. For lighting problems not solved by the numbers illustrated, please feel free to write us, giving full details regarding your lighting problems.
